COMPLEXITY

What kinds of problems do we mean when we talk about complexity?

– Can crowds improve existing works? [1, 5]
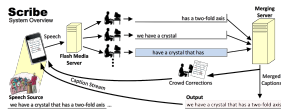

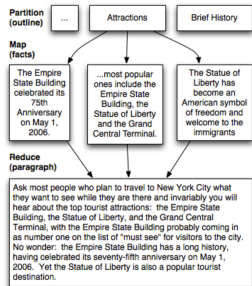

What kinds of problems do we mean when we talk about complexity?

- – Can crowds improve existing works? [1, 5]
- – Can crowds critique designs? [8]

What kinds of problems do we mean when we talk about complexity?

- Can crowds improve existing works? [1, 5]
- Can crowds critique designs? [8]
- Can crowds create things from whole cloth? [3, 4, 2, 7]

- Build complexity into the process
  - Apply CS methods to people (Kittur et al. [6])

WHAT DOES THE CROWDSOURCING LITERATURE SAY?

– Build complexity into the
process

- – Apply CS methods to
  people (Kittur et al. [6])
- – see other stuff

something even more insightful, I'm sure!
